

ELETTA SWEDISH ENGINEERING SINCE 1947

High quality design and manufacture of
flow meters and flow switches.

Our team

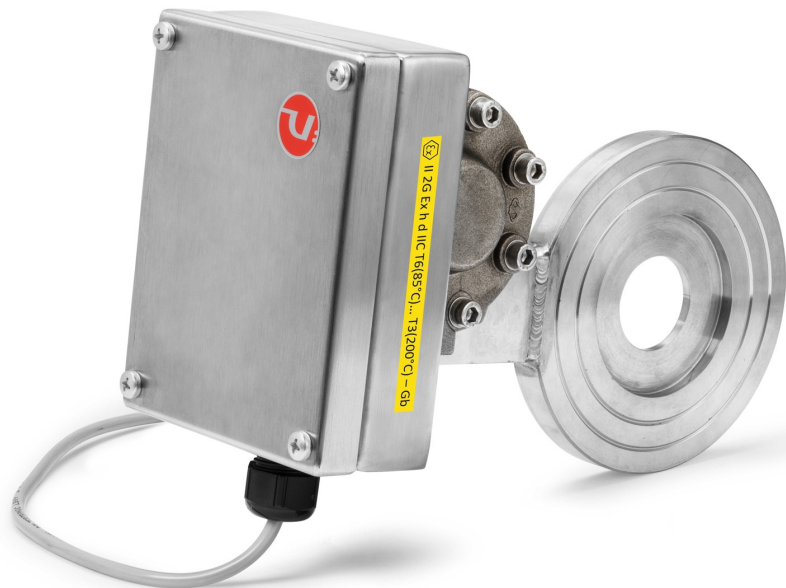

At Eletta Flow AB, we have assembled a team of experts in fluid measurement and control.

Our team members bring a wealth of knowledge and experience to each project, ensuring that our solutions meet the highest standards of quality and reliability. From our engineers and designers to our sales and support staff, every member of our team is committed to delivering professional customer service and providing solutions to even the most complex challenges.

We take pride in our work and strive to exceed our customers expectations at every opportunity.

Our products

Our patented technology enables accurate and reliable measurements, giving our customers valuable data in their processes.

The products are developed with a focus on...

- **Quality**
- **Sustainability**
- **Reliability**
- **Longevity**

Our solutions are tailored to improve process control and increase efficiency in a variety of applications.

Environmentally friendly and cost-saving

- **Materials in our products:** are almost 100% recyclable.
- **Save energy:** Safe monitoring of various liquids, vapours and gases in industrial applications reduces high energy costs and ensures high quality in our customers' processes.
- **Made for a long life:** Provides savings for expensive replacements and production downtime.
- **Construction:** Mechanical function that does not need external energy that makes it possible to reduce its CO2.
- **Safety:** Flow meters are designed without any moving parts and require no periodic maintenance. Saving both time and money.

Quality and environment

We are committed to reducing our environmental impact and promoting sustainable practices. We believe it is our responsibility to work in a way that minimizes damage to the planet and preserves natural resources for future generations.

We focus on the following areas:

- **Energy use:** We reduce our electricity consumption by using energy-efficient equipment and appliances.
- **Waste management:** We separate waste at source and avoid using disposable or single-use items as much as possible.
- **Carbon footprint:** We try to reduce carbon emission by using efficient materials, working with suppliers who care about their carbon footprint, using renewable energy sources and improving our transport and logistics efficiency.
- **Chemicals and hazardous substances:**
 - We reduce the use of hazardous chemicals by considering alternative, safer products.
 - We follow the best practices for storage, handling, and disposal of hazardous substances.
- **Transport and logistics:** We use digital meetings and teleworking to avoid unnecessary trips.
- **ISO 9001 & ISO 14 001:** We meet the requirements for quality and environmental management systems for our operations. We continuously improve our environmental performance and objectives.

Benefits as a customer

- **Improved efficiency:** You can reduce waste, optimise the use of raw materials and energy, and ensure your system operates at peak performance.
- **Increased safety:** Our flowmeters help you monitor and protect your system from potential hazards. This ensures a high level of safety and reliability in your operations.
- **Accurate and reliable measurement:** You can be sure that you have accurate data to monitor and optimise your processes.
- **Customised solutions:** We understand that every customer has unique needs. We offer customised solutions that fit your processes and systems, ensuring you get the best results.
- **Expertise and support:** We have distributors over the whole world and are available to provide you with technical support and advice. We help you choose the right products.

Our Industry segment

- Pulp and Paper
- Nuclear energy
- Particle accelerator
- Foundries
- Steel industry
- Cement industry
- Medical equipment

- Chemical industry
- Mining industry
- Thermal power plants
- Hydroelectric power plants
- Car industry

Main application tones

- Cooling water circuits
- Lubricating oil circuits
- Gas flow
- Steam flow

Our customers

At Eletta Flow AB, we are proud of our ability to deliver high-quality products and solutions that meet our customers' needs.

Our client base includes some of the most reputable companies in the industry, and we are proud to have played a part in their success.

Elettas Vision

At Eletta Flow AB we constantly strive for a future that is more

- Efficient
- Sustainable
- Innovative

Our vision is to be at the forefront of the industry, leading the development of solutions that meet the changing needs of our customers.

To achieve this vision, we focus on investing in developing and expanding our product range, building strong partnerships and maintaining our position as a trusted partner to our customers.

Financial position and forecasts

Eletta Flow AB has a history of consistent growth.

Our forecasts show continued growth and profitability in the coming years.

Distributors

- **Austria** - Eletta Messtechnik GmbH
- **Australia** - Control Components
- **Brazil** - Applitech
- **Czech Rep** - Level Instruments
- **Egypt** - HAK Automation
- **Finland** - Kontram
- **Hungary** - Hennlich Ipartehnika
- **Italy** - Trafag Italia
- **Japan** - Gadelius K.K.
- **Malaysia** - Haven Automation, Tritan
- **Norway** - Sigum Fagerberg
- **Poland** - Brammer, Bth Numa
- **Spain** - Lana Sarrate
- **South Africa** - DLM
- **South Korea** - Daelim

- **Switzerland** - Eletta Switzerland, Wisag
- **Thailand** - U-Thong Co.,Ltd.
- **Turkey** - S-Meter
- **UAE** - Peeraj Group
- **UK** - MJ Wilson Group
- **Vietnam** - Viet-Tech JSC

Subsidiaries

- **Belgium** - Eletta Instrumentation SAS
- **China** - Eletta (Beijing) Co. Ltd.
- **France** - Eletta Instrumentation SAS
- **Germany** - Eletta Messtechnik GmbH
- **India** - Eletta Instrumentation India
- **Indonesia** - Eletta Flow AB's Resident Regional
- **Sweden** - Eletta Direct Sale
- **USA** - Eletta Flow, Inc.
